Little Feet

Hello Families!

We are so surprised at how fast these months continue to go by! We are as always busy continuing to learn lots of new things. We were able to get out of the classroom and enjoy the warmer weather and watch the birds fly! We've also been walking to the Rec Center for Tumbling Tots with Ms. Nicole.

We welcomed little Miss Myah to our classroom. We are so glad to have her and are excited to watch her grow and learn! Naomi and Arnesto are starting their transitions into the toddler rooms, T2 and T4. We're excited to send them on they way to new and exciting challenges!

We hope you all enjoyed your Spring Break!
Until next time,

Ms. Annie, Ms. Sondra and Ms. Kaylee

Toddler 1

Spring Fever in T1! After Spring Break we will be discovering some things about spring, exploring soil/worms, planting seeds, and watching our beanstalks grow. We will be doing some mud play every Wednesday so please send your children with clothes to explore in!

Miss Debbie & Miss Rose

Toddler 2

This past month has been lots of fun in T2! We enjoyed learning about community helpers, St. Patrick's Day, and Spring. We are now beginning to learn Zoophonics, how to spell our names, and recognize letters! We also get to welcome a new friend into our classroom this month, Arnesto! We have a lot planned for the long month of April, and we cannot wait to begin!

Toddler 3

Hello everyone,

The month of March was full of adventure in T3. We learned about Shamrocks, rainbows, and leprechauns this month. We enjoyed getting messy with green slime and a bowl of Leprechaun soup (Green water table). Outside on our playground, we went on a very exciting treasure hunt for hidden objects. The children really enjoyed searching high and low for these items. To top it all off we followed green sparkly foot prints in search of a Leprechaun. We didn't find the little leprechaun, but we came back with the Pot of Gold! We enjoyed our St. Patty's day party on Friday and made green fruit salad. Outside we brought a little science to our day and decorated our sidewalks with exploding side walk paint and green bell pepper Shamrock stamps. Our class has already been soaking up the warm weather and have went for several walks around campus lately and we can't wait to enjoy the upcoming warm days! We look forward to learning about the Spring Season and spending a lot of time outside this coming month!

Until next time,

Ms. Jamie and Ms. Brittney

Classroom 2

Hello Parents! We are super excited that it is Spring! The kiddos love going on out adventures outside, whether it's a walk around the school or a walk around the Rec Center! We finished out unit on boxes this month! We made a truck, school bus, boat, house, mail, and puppet stage with the boxes the kitchen kindly gave to us! Our next unit is trees but until then we are doing a week on friendship! Some of our friends forgot what a good friend is so we'd like to remind them!.

Miss Becca & Miss Denisha

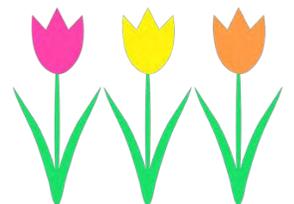

Classroom 3

Happy Spring!

Classroom 3 is full of blooming flowers! We have finished our unit on pets and will be starting the Bread unit after Spring Break. We will be doing several cooking projects during this unit. Let us know if you have a recipe that involves bread that you would like to make or share with the classroom. Also if you are a baker, or enjoy cooking, or make tortillas, etc. we would to have you share your story with the class. Let Melanie or Kylie know if you are interested in coming in and we will find a time that works best. We have been enjoying this beautiful weather and spending lots of time outside. Reminder there is a transition dinner for the children that are going to Kindergarten. The dinner is on April 12th. Everyone is invited to the Family Night on April 27th. We love watching your children learn and grow. Thank you for sharing them with us!

Ms. Melanie and Ms. Kylie

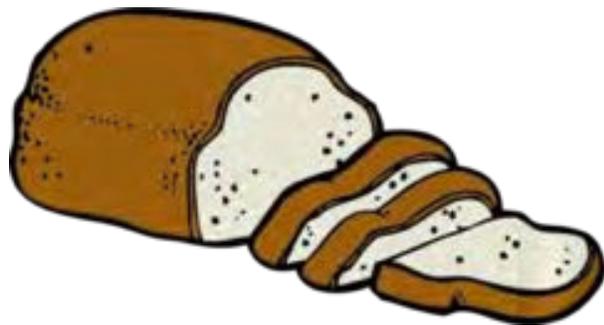

Classroom 4

Last month Classroom 4 was very busy and had a lot of fun learning about and making many different kinds of bread. We celebrated Dr. Seuss's birthday by making a layered pancake cake; we made flat bread, biscuits, pizza, and play dough. We learned how to make butter and watched germs grow into mold. You may also have heard about the worms that now live in our classroom, we will use them to begin our next study: TREES! We will learn about the life cycle of trees and begin to plant seeds for our outdoor garden beds. We are always thankful for any and all In-Kind so please come spend time with us in the classroom or bring the family for our family events.

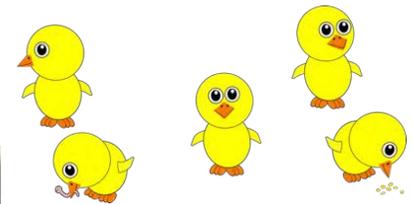

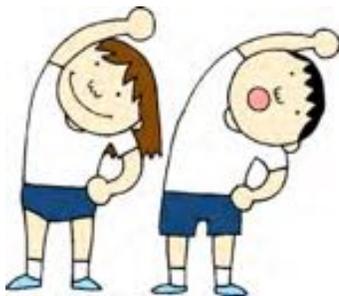

Ms. Virginia and Miss Sabrina

Classroom 5

Room 5 is moving along, we are finishing up our unit on exercise and moving into the pets unit. The children have enjoyed learning about exercise, healthy eating and cooking. This unit had a few cooking activities, such as, vegetable soup that we turned into stone soup after reading the book titled Stone Soup, we made five-layer dip and hummus. I hope you can stop in and talk to the children about pets and animals. On April 20th the Bayfield FFA chapter will be bringing animals for the children to play with.

Classroom 6

Welcome back everyone, I hope you all had a fun Spring Break. Can you believe we have a month left of school before Summer Vacation and a lot is happening. Transition Dinner for all Graduates on April 12th and Family Night on April 27th. Home Visits on May 5th, Field Day on May 10th and GRADUATION on May 25th. We will be learning about Pets this month and if your child would like to bring in a picture of there pets please feel free to bring them or the actual animal in to show and tell. We will be focusing on Kindergarten readiness for all Graduates, congratulations to all of them.

Thanks for coming out to have a great time with us!
Here are
some awesome pictures we

More Pictures!
